

PRESCRIBED MINIMUM BENEFITS BASKET OF CARE FOR WHO GLOBAL OUTBREAK BENEFIT

DISCOVERY HEALTH MEDICAL SCHEME
2022

Overview

From time to time, there are viruses or diseases that affect world health and resulting in public health emergencies. Each outbreak is closely monitored by the World Health Organization (WHO) and, depending on the severity and spread, declared as a pandemic that places the global population's health at risk.

We recognise the importance of being responsive to these public health emergencies. Through careful benefit design and in support of public health initiatives aimed at containing and mitigating the spread of such outbreak diseases, our members have access to supportive benefits during the outbreak period. The outbreak is actively monitored by a dedicated team within Discovery Health that closely assesses the evolution and progression of such outbreaks. Having a timely and effective response to global epidemics helps to improve the health outcomes for our members.

Cover is subject to the Scheme's preferred providers (where applicable), protocols and the treatment meeting the Scheme's entry criteria and guidelines. Any recommended treatment and healthcare services that are not included in the basket of care are covered according to the benefits available on your chosen health plan or in accordance with Prescribed Minimum Benefits (PMBs) where applicable. Please refer to the Council for Medical Schemes (CMS) website www.medicalschemes.co.za for PMB definitions, details and a list of all PMB conditions.

Discovery Health Medical Scheme health plans are structured in such a way as to maximise cover no matter which health plan a member chooses. Some health plans cost more but offer more comprehensive benefits while others have lower contributions with fewer benefits. Regardless of this, all our plans cover more than just the minimum benefits required by law.

This document provides information about the Prescribed Minimum Benefits (PMBs) basket of care for treatment of acute COVID-19 and long COVID as part of the WHO Global Outbreak Benefit. The WHO Global Outbreak Benefit provides cover for global disease outbreaks recognised by the World Health Organization (WHO) such as COVID-19. This benefit offers cover for the vaccine (in line with national protocols), testing, diagnosis, out-of-hospital management and appropriate supportive treatment.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Day-to-day benefits	These are the available funds allocated to the Medical Savings Account (MSA) and Above Threshold Benefit (ATB), where applicable. Depending on the plan you choose, you may have cover for a defined set of day-to-day benefits. The level of day-to-day benefits depends on the plan you choose.
Designated service provider (DSP)	A healthcare provider (for example doctor, specialist, allied healthcare professional, pharmacist or hospital) who we have an agreement with to provide treatment or services at a contracted rate. Visit www.discovery.co.za or click on Find a healthcare provider on the Discovery app to view the full list of DSPs.
Discovery Health Rate (DHR)	This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services.
ICD-10 code	A clinical code that describes diseases and signs and symptoms, abnormal findings, complaints, social circumstances and external causes of injury or diseases, as classified by the World Health Organization (WHO).
Prescribed Minimum Benefits (PMBs)	<p>In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of:</p> <ul style="list-style-type: none"> An emergency medical condition A defined list of 271 diagnoses A defined list of 27 chronic conditions. <p>To access Prescribed Minimum Benefits (PMBs), there are rules defined by the Council for Medical Schemes (CMS) that apply:</p> <ul style="list-style-type: none"> Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit (PMB) conditions The treatment needed must match the treatments in the defined benefits

PRESCRIBED MINIMUM BENEFITS BASKET OF CARE FOR WHO GLOBAL OUTBREAK BENEFIT

Discovery Health Medical Scheme, registration number 1125, is regulated by the Council for Medical Schemes and administered by Discovery Health (Pty) Ltd, registration number 1997/013480/07, an authorised financial services provider. Find a healthcare provider and the Discovery app are brought to you by Discovery Health (Pty) Ltd; registration number 1997/013480/07, an authorised financial services provider and administrator of medical schemes.

You must use Designated Service Providers (DSPs) in our network. This does not apply in emergencies. However even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network once your condition has stabilised. If you do not use a DSP we will pay up to 80% of the Discovery Health Rate (DHR). You will have to pay the difference between what we pay and the actual cost of your treatment.

If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.

WHO Global Outbreak Benefit	The WHO Global Outbreak Benefit provides cover for global disease outbreaks recognised by the World Health Organization (WHO) such as COVID-19. This benefit offers cover for the vaccine, out-of-hospital management and appropriate supportive treatment.
Acute COVID-19 infection	Initial diagnosis of COVID-19.
Long COVID	Diagnosis when symptoms of an acute COVID-19 infection persist beyond 28 days after a confirmatory test.

Please make sure your claims have the appropriate ICD-10 code

All claims must have the appropriate ICD-10 codes (diagnosis codes) so we can identify them and pay them from the WHO Global Outbreak Benefit. Please ask your doctor to include the ICD-10 codes (diagnosis codes) when referring you to the pathologist, radiologist or other healthcare providers. This will enable these healthcare providers to share this information with us and allow us to comply with legislation by paying Prescribed Minimum Benefits (PMBs) claims correctly.

We may pay claims from your day-to-day benefits if Prescribed Minimum Benefit (PMB) requirements are not met

We will pay claims from your available day-to-day benefits when:

- The claims are submitted without the relevant ICD-10 codes (diagnosis codes).
- The treatment does not meet the Scheme's clinical entry criteria and guidelines for Prescribed Minimum Benefit (PMB) funding.

What happens if you need more treatment or treatment that falls outside of these defined benefits

If you need treatment in excess of or treatment that falls outside of the defined benefits, you and your healthcare professional can send additional clinical information with a detailed explanation of the treatment that is needed, and we will review it. If this treatment is approved as Prescribed Minimum Benefit (PMB), it will not be paid from your available day-to-day benefits, but from your approved Prescribed Minimum Benefit (PMB) cover.

You can follow the below easy steps to apply for Prescribed Minimum Benefit (PMB) cover in excess of the benefits stated in the tables below:

1. Download the Prescribed Minimum Benefits (PMBs) Appeals Form. Up to date forms are always available on www.discovery.co.za under Medical Aid > Manage your health plan > Find important documents and certificates. You can also call 0860 99 88 77 to request any of the forms.
2. Complete the form with the assistance of your doctor or healthcare professional.
3. Send the completed, signed form, along with any additional medical information, by email to PMB_APP_FORMS@discovery.co.za.

If we approve the requested medicine or treatment, we will automatically pay these from your Prescribed Minimum Benefit (PMB) cover for COVID-19. If the approval is unsuccessful and you are not satisfied with the outcome, you may dispute the funding decision. Call us to lodge a formal dispute.

For more information on your cover for Prescribed Minimum Benefits (PMBs) please visit our website www.discovery.co.za under Medical Aid > Manage your health plan > Find important documents and certificates.

Understanding long COVID

Long COVID disease is diagnosed when symptoms of an acute COVID-19 infection persist after 28 days of receiving a positive test result. For detailed information on long COVID, please refer to the WHO Global Outbreak Benefit guide on www.discovery.co.za > Medical aid > Benefits and cover > COVID-19 Benefits.

The Long COVID Recovery Programme is designed with varying baskets of care according to clinical need of the member. It is based on severity of the acute illness and is offered in addition to the benefits for treatment of acute COVID-19. These baskets are categorised as below and contain the treatment indicated in the information tables provided.

A: Mild disease

B: Moderate disease

C: Severe disease with admission to the general ward

D: Severe disease with admission to Intensive Care Unit (ICU) or Highcare (HC)

How to activate the Long COVID Recovery Programme

We will activate the programme on your behalf by identifying qualifying COVID-19 claims and we will let you know that we have activated your Long COVID Recovery Programme. You can also apply for the programme by completing the [Application for out-of-hospital treatment of a Prescribed Minimum Benefit \(PMB\) condition](#) form with the appropriate long COVID ICD-10 code.

Access support from online patient communities

Discovery Health has partnered with myHealthTeams, a global leader in facilitating highly effective online patient communities. This gives members who are diagnosed with long COVID access to a digital community of patients living with the same illness to help them manage their condition. Visit www.discovery.co.za > Medical aid > Benefits and cover > Most Queried Benefits > Extra benefits to enhance your cover for more information and to access an online community of support.

Mental Health Care Programme

Discovery Health Medical Scheme offers you access to the Mental Health Care Programme for enhanced benefits and care for your mental health. Please visit www.discovery.co.za > Medical aid > Benefits and cover > Most Queried Benefits > Mental Health Care for more information about your benefits and cover for mental health. Visit our dedicated [Mental Health Information hub](#) for additional information and support.
