KeyCare dental medicine 2022

DISCLAIMER

The information contained in this document may be subject to change. The KeyCare dental benefit and the utilisation of the benefits and programmes associated with the KeyCare dental benefit is subject to specific conditions and rules. You must ensure that you are familiar with these rules and conditions. The Scheme Rules are available on www.discovery.co.za

Any instruction or advice we give about medicines and the management of your condition is intended as a supplement to, and not a substitute for, the knowledge, expertise, skill and judgement of your doctor, pharmacist or other healthcare professional.

You may need to get your medicine from a designated service provider (DSP) to avoid a 20% co-payment. Visit www.discovery.co.za under Medical Aid > Find a doctor or click on **Find a provider** in the Discovery app to find providers in our network.

Discovery Health Medical Scheme reserves the right to change the benefit at any time. We will communicate any changes to the way we pay medicines when we make these. The latest version of our medicine list is always available on www.discovery.co.za under Medical Aid > Manage your health plan > Find important documents and certificates.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
NAPPI code	This is a unique identifier for a given medicine, surgical or consumable product.

KeyCare dental medicine list (formulary)

This medicine list (formulary) contains medicines for acute (short term) use only. We have set the quantity of medicine for each medicine sub-category according to a specified number of days. For example, a member can claim up to a maximum of 30 Moxymax 250 mg capsules once every 120 days, or 200ml Augmaxcil S suspension once every 120 days.

Please note: We will cover only one medicine from each medicine sub-category in the specified time period. For example: a prescription may not include Dispirin and Paracetamol within 120 days of each other, because both medicines are in the same medicine sub-category.
