

# **COVER FOR ALCOHOL, SUBSTANCE & DRUG DETOXIFICATION & REHABILITATION**

DISCOVERY HEALTH MEDICAL SCHEME  
2022

## Overview

This document gives you information about how Discovery Health Medical Scheme ('The Scheme') pays for alcohol, substance and drug detoxification and rehabilitation. You will find information about how we pay for these treatments both in and out-of-hospital and who the designated service providers (DSPs) for these treatments are.

## About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Co-payment	This is an amount that you need to pay towards a healthcare service. The amount can vary by the type of covered healthcare service, place of service or if the amount the service provider charges is higher than the rate we cover. If the co-payment amount is higher than the amount charged for the healthcare service, you will have to pay for the cost of the healthcare service.
Designated service provider (DSP)	A healthcare provider (for example doctor, specialist, allied healthcare professional, pharmacist or hospital) who we have an agreement with to provide treatment or services at a contracted rate. Visit <a href="http://www.discovery.co.za">www.discovery.co.za</a> or click on Find a healthcare provider on the Discovery app to view the full list of DSPs.
Discovery Health Rate (DHR)	This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services.
Prescribed Minimum Benefits (PMBs)	In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of: An emergency medical condition A defined list of 271 diagnoses A defined list of 27 chronic conditions. To access Prescribed Minimum Benefits (PMBs), there are rules defined by the Council for Medical Schemes (CMS) that apply: Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit (PMB) conditions The treatment needed must match the treatments in the defined benefits You must use Designated Service Providers (DSPs) in our network. This does not apply in emergencies. However even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a DSP we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment. If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.
Emergency medical condition	An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.

## The Alcohol, Substance and Drug Detoxification and Rehabilitation Benefit

**We cover in-hospital alcohol, substance and drug detoxification and rehabilitation as a Prescribed Minimum Benefit (PMB)**

The Scheme has certain exclusions that we do not pay for, except where stipulated under the Prescribed Minimum Benefits (PMBs). Alcohol, substance and drug abuse is a general scheme exclusion. However, the in-hospital management of alcohol, substance and drug, detoxification and rehabilitation are Prescribed Minimum Benefits (PMBs), in terms of the Medical Schemes Act 131 of 1998 will be covered. The Scheme does not pay for the out-of-hospital management and treatment for detoxification and rehabilitation as it is a general scheme exclusion and is not included as part of the Prescribed Minimum Benefits (PMBs).

**You have cover for alcohol, substance and drug detoxification in full at one of our licensed detoxification designated service providers (DSPs) for a maximum of three days for each approved admission.**

You also have cover for alcohol, substance and drug rehabilitation at one of our designated service providers (DSPs) for a maximum of up to 21 days in hospital each year. This is the maximum allowable days for each person per year. Once the 21 rehabilitation days are depleted, the Scheme will not cover future admissions linked to alcohol, substance and drug detoxification for the remainder of the year.

#### The Scheme has designated service providers (DSPs) for in-hospital alcohol, substance and drug detoxification and rehabilitation

All designated service providers (DSPs) for alcohol, substance and drug detoxification and rehabilitation services across South Africa are listed on page 4 of this document. We have an agreed rate that we pay these providers, and this includes cover for:

- Accommodation at the facility (Ward Fee)
- Nursing services
- Social worker consultation
- Medicine for withdrawal management and aftercare.

You must use healthcare professionals (such as Psychologists, GPs, Psychiatrists, Occupational therapists) who we have payment arrangement with, so that you do not experience co-payments. You can use Find a healthcare provider on [www.discovery.co.za](http://www.discovery.co.za) to find designated service providers (DSPs) who we have a payment arrangement with.

#### You must get your in-hospital treatment from our designated service providers (DSPs) for full cover

The Scheme will only cover your admission for treatment, if you are admitted to a facility which is appropriately registered and accredited to provide this specific treatment. If you choose to use a facility that is not a designated service provider (DSP) for alcohol, substance and drug detoxification and rehabilitation, we will pay up to 80% of the Discovery Health Rate (DHR). You will have to pay the difference. Your co-payment may be higher than 20% if your service provider charges more than the Discovery Health Rate (DHR). This does not apply in the case of an emergency.

#### You need to authorise your admission for in-hospital treatment and rehabilitation

Please make sure you get preauthorisation for your admission for alcohol, substance and drug detoxification and rehabilitation. We will then give you information about your cover, as well as the closest designated service provider (DSP) to you. If you do not authorise your admission before going into hospital, the Scheme will only pay up to 70% of the Discovery Health Rate (DHR) for this admission. You will need to pay the difference.

#### We will consider full payment in cases where there is no designated service provider (DSP)

If there is no designated service provider (DSP) facility close to the place where you usually work or live, or if it is an emergency, you may use any other accredited service provider. Please discuss this with us when you contact us to preauthorise your treatment. We will tell you under what circumstances we pay the claims for alcohol, substance and drug detoxification and rehabilitation in full without any co-payments.
