About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Designated service provider (DSP)	A healthcare provider (for example doctor, specialist, pharmacist or hospital) who we have an agreement with to provide treatment or services at a contracted rate. Visit www.discovery.co.za or click on Find a healthcare provider on the Discovery app to view the full list of designated service providers (DSPs).
Discovery Health Rate (DHR)	This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services.
Emergency medical condition	An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.
HealthID	HealthID is an online digital platform that gives your doctor fast, up-to-date access to your health information. Once you have given consent, your doctor can use HealthID to access your medical history, make referrals to other healthcare professionals and check your relevant test results.
ICD-10 code	A clinical code that describes diseases, signs and symptoms, abnormal findings, complaints, social circumstances and external causes of injury or diseases, as classified by the World Health Organization (WHO).
Premier Plus GP	A Premier Plus GP is a network GP who has contracted with us to provide you with coordinated care for defined chronic conditions.
Prescribed Minimum Benefits (PMBs)	In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of: <ul style="list-style-type: none"> • An emergency medical condition • A defined list of 271 diagnoses • A defined list of 27 chronic conditions. To access Prescribed Minimum Benefits (PMBs), there are rules defined by the Council for Medical Schemes (CMS) that apply: <ul style="list-style-type: none"> • Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit (PMB) conditions • The treatment needed must match the treatments in the defined benefits • You must use designated service providers (DSPs) in our network. This does not apply in emergencies. However even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a designated service provider (DSP) we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment. If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.
Selective serotonin re-uptake inhibitor (SSRI)	Selective serotonin re-uptake inhibitors are a class of antidepressant medicine that includes Fluoxetine, Paroxetine, Citalopram, Escitalopram, Sertraline and Fluvoxamine.
